EDUCATION

National Institute of Technology, Jamshedpur

B.Tech in Electronics and Communications Engineering | CGPA : 8.36

Jharkhand, India

November 2022 – July 2026

Christ Junior College, Bengaluru

Class-12th Department Pre- University Karnataka | Percentage : 93.6

Karnataka, India

July 2020 – May 2022

WORK EXPERIENCE

Salesforce, Inc

May 2025 – July 2025

Associate Member of Technical Staff Intern

- Improved performance and scalability of an existing **ETL pipeline**, achieving measurable efficiency gains.
- Integrated **NVIDIA RAPIDS Accelerator for Apache Spark** to enable GPU processing, reducing execution time by **50% on small datasets** and demonstrating up to **50% improvement** in SQL-heavy workloads, with lower compute costs.
- Developed and optimized **data processing workflows** using **Python, PySpark, and Spark** in a cloud-native environment.
- Tech Stack:** Python, PySpark, Apache Spark, AWS (EMR on EKS, S3), Kubernetes, Docker, Git.

Amazon

Jan 2026 – Present

Software Development Engineer Intern

- Building a **dynamic recommendation system** for the Subscribe & Save team to help sellers drive higher revenue and improve customer retention.
- Designing and developing scalable backend services using **Spring Boot** to serve real-time personalized recommendations.
- Leveraging **AI/ML-based ranking and recommendation techniques** to optimize product suggestions based on user behavior and purchase patterns.
- Working on system design aspects including **low-latency APIs**, data pipelines, and integration with large-scale distributed systems.
- Tech Stack:** Java, Spring Boot, AWS, Distributed Systems, APIs, Machine Learning.

SKILLS AND COMPETENCIES

- Programming & Development:** Python, Java, C++, SQL, JavaScript, HTML/CSS, React.js, Node.js, Spring Boot, Tailwind CSS, Git
- Software Engineering & Data:** Data Structures & Algorithms, Object-Oriented Programming, REST APIs, System Design, Data Engineering, ETL Optimization, MySQL, MongoDB
- Cloud & Systems:** AWS (S3, EMR on EKS), Apache Spark, PySpark, NVIDIA RAPIDS, Docker, Kubernetes, Distributed Systems, Linux

PROJECTS

Stable Diffusion Model for Text-to-Image and Image-to-Image Conversion | Source Code

May 2024

- Implemented a custom **Stable Diffusion** model in **PyTorch** for text-to-image and image-to-image tasks, integrating noise scheduling, attention layers, decoder modules, and **CLIP** embeddings to improve generation quality and visual coherence.

Plant Disease Recogniser | Source Code

May 2024

- Developed a deep learning model achieving **95% accuracy** on the PlantVillage dataset and deployed it as a **Streamlit-based web application** running on local host.
- Tech Stack:** TensorFlow, Streamlit

ACHIEVEMENTS

- Tekion's Tek-Qubit: Women of Impact 2025:** Semi-Finalist (Top 9/500+): Built an AI-powered Vehicle Trade-In and Service Assistant to enhance customer experience and dealership workflows..
- Futureforce Salesforce Women in Tech Summit 2024:** Attendee — Selected as one of **120 candidates** from **4000+ applications** nationwide.
